

**Stationary telescopic seating** - Stationary telescopic seating are available in different types, and we deliver and install them to fit your needs.

## STATIONARY TELESCOPIC SEATING

Unisport Scandinavia has great experience with many types of telescopic seating. We deliver both stationary and mobile telescopic seating. They are available in many different types, and we deliver and install them to fit your needs. It is possible to think creatively when it comes to number of rows, width, color and sub construction. Details like seats and steering system can be individually suited. All assignments - regardless of the size - can and will be treated with professionalism, and our assembling team have great experience about both stationary and mobile grandstands.

### Which type of telescopic seating do we offer?

- Stationary telescopic seating - indoor or outdoor model -

individually fitted to the sports hall in question.

### What are the benefits with our telescopic seating?

- We offer telescopic seating in the highest quality, with a long service life and an effective handling process.
- We offer a early service check on grandstands, so we can ensure that the grandstand works in a secure way.
- We can tailor the telescopic seating individually - regardless of the size.
- Our experienced project managers and assemblers guarantee an optimal installation process.
